International/Global RE: ESG Webinar Recording and Online Resource Center Now Available

The recording and slides from last week's ESG webinar are now available at https://www.ici.org/events/highlights/webinars/19_icig_webinar_esg_1023. The webinar provides a high-level overview of ESG-related policy and market developments in the US and Europe, including a discussion of practical issues that fund managers should consider.

We also wanted to alert you to new information on our website -- an online ESG Investing Resource Center with information on policy developments and ICI's advocacy efforts in the US and globally. The ESG Investing Resource Center is available at <https://www.ici.org/esg>. You will need to be logged in to see all information available.

The "International" section of the Resource Center includes a link to an updated version of the ICI Global ESG-Related Policy Developments Tracker Chart. The "United States" section includes a link to a comprehensive collection of US policy developments in executive, legislative, and regulatory areas.

Dorothy M. Donohue
Deputy General Counsel - Securities Regulation

Linda M. French
Assistant Chief Counsel, ICI Global
