During this trying time, we are striving to be as best a resource as possible for our members. Attached is a document that provides an update on global market and regulatory developments related to COVID-19 of which we have become aware, with a focus on developments that affect regulated funds. This document covers developments in Europe, Asia, the Middle East and Africa, and the United States from mid-March to March 27.

Going forward, we will prepare a memo on Friday summarizing the developments that week.

We also are providing a daily email update. Please contact Jean Zadeh (jean.zadeh@ici.org) to be added to the daily email distribution list.

We hope that you will find these updates helpful, and we value your feedback and engagement on how to make these updates as useful as possible.
