The 2006 Primary Layout is an excel spreadsheet that has been designed to "track" IRS Form 1099-DIV. The 2006 Secondary Layout, also an excel spreadsheet, provides a format for RICs to use in reporting CUSIP- level tax information regarding various additional tax related items. As in prior years, these formats are available on the Institute's members only website at <http://members.ici.org/yearendtax.do>. 1 Requested Reporting Date The brokerage community has requested that funds provide year-end tax information on the Primary Layout no later than January 9, 2007. Information on the Secondary Layout is requested no later than January 17, 2007. Any fund complex that requires additional time to prepare the data may choose to communicate with the brokers and banks that sell their funds to arrange an alternate date. 1 Hard copies of the documents and spreadsheets are available to the Institute's members upon request to the Institute's Ezella Wynn (ewynn@ici.org or 202/218-3560). 2 * * * The rules governing the proper tax characterization of distributions by mutual funds can be complex. Each fund should consult its own tax advisor regarding the proper tax characterization and reporting of the fund's distributions. Lisa Robinson Associate Counsel Attachment (in .pdf format)
