USE OF FUNDS COMPUTER COMMUNICATIONS NETWORK

August 29, 1991 TO: SMALL FUNDS MEMBERS NO. 9-91 RE: USE OF FUNDS COMPUTER COMMUNICATIONS NETWORK _____ As you know, the Institute maintains a computer communications network with its members. The network is designed to give members access to a great deal of useful information while also providing a convenient means to transmit regular statistical data to the Institute. The attached issue of portfolio describes this system in more detail. We have found that FUNDS is used a great deal by most of the large fund groups, but much less by smaller groups. We suspect some of the reasons for this disparity but would greatly appreciate receiving your responses/suggestions on the attached questionnaire which will help us design a system more suitable to the needs and realities of smaller fund groups. Please complete the attached questionnaire and return it to Ms. Sheilah R. Henderson, Investment Company Institute, 1600 M Street, NW, Suite 600, Washington, DC 20036. Thank you in advance for your participation. C. Richard Pogue Senior Vice President - Management Attachment
