International/Global RE: ICI Responds to ESMA ESG Ratings Consultation

Attached is our response to the Call for Evidence on Market Characteristics of ESG Rating Providers in the European Union, which was conducted by the European Securities and Markets Authority (ESMA).[1]

In our letter, we restate our key recommendations from our September 2021 response to the IOSCO Consultation on ESG ratings and data providers.[2] More specifically:

- We emphasized the need for greater transparency by ESG ratings and data providers.
- We stated that regulatory intervention for this market is premature, but we expressed support for the concept of industry-developed codes of conduct for ESG ratings and data providers, which generally could be based on the IOSCO's high-level recommendations.

Anna Driggs Director and Associate Chief Counsel ICI Global
