Quarterly average rates are used to convert sales, redemptions and net sales in local currencies to U.S. dollars and euros. Exchange rates reported in the table are rounded to the nearest one ten-thousandth (.0001) unit of local currency. Exchange rates used in the conversion of assets and flows from local currencies to dollars and euros may utilize more significant digits. As a result, assets and flows measured in dollars and euros may differ from values calculated using the exchange rates reported in this table. 1 Average of daily rates. 2 Members of the European Monetary Union; local currency is the euro.
